PAPERSTYLE BY NATURE

We believe that true beauty can be found in nature. And it is here, in the Nordic landscape we find our inspiration for the Paperstyle assortment. With handpicked materials in the highest quality, we offer both trendy and calm colours to choose from. We are convinced that you will find a notebook that will fit you perfectly within our collection, regardless if you will use it at home or for work.

In this digital day and age, we want to encourage handwriting. There are so many benefits with writing by hand! Not only is it relaxing, the art of handwriting is scientifically proven to help with learning and remembering, as well as evolving your language.

Welcome to the world of Paperstyle!

WE LOVE PAPER

Paperstyle was founded in Sweden in 1997 with the vision to offer high quality paper products with a timeless Scandinavian design. We care about, and find great inspiration for the colours of our products from nature. We value sustainability and quality and chose to collaborate only with partners who share these values. We have made a strategic decision to bind our books in Europe to keep the production as close as possible.

Paperstyle is a part of Concess Nordic AB, which is owned by Leuchtturm Gruppe, which is a family-owned company in third generation with great passion for paper, design, quality and details, a passion everyone in the company shares.

The paper

The paper we have chosen for our notebooks is a Swedish high-quality paper that will keep its freshness for generations to come. The crème-coloured paper has a smooth surface which make writing a pleasurable experience. It is also proven to be relaxing for the eye and easier to read from. The recipe and thickness of the paper allow you to use fountain pens, ballpoint pens or pencil with excellent performance without bleeding through to the next page. The structure of the paper prevents the ink from feathering, something that suits everybody with high requirements. We wish you a happy writing experience and we guarantee that your notes and sketches will live for a very long time.

The cover

The high-quality paper deserves an exclusive book linen cover with a nice texture and feel to it. Our notebooks are made for daily use to last for many years, as well as an interior design decoration. We take great care in finding the perfect book linen cover made in Europe, page marker and headband with colours inspired from nature but also from the trends we find in fashion, enjoy!

Sustainability

Our notebooks are developed with more than design and quality in mind. Our priority has always been to produce sustainable products with minimal impact on the environment.

We choose to use paper from a Swedish paper mill that is one of the world's most sustainable. Both the mill itself and the paper it produces are FSC® certified, which means that the forest is managed in a way that preserves biological diversity and promotes local people and workers. When production is finished the water used is so clean that you can drink it. The paper is also Cradle to Cradle Certified® at Bronze level. This is a global standard that guarantees that the paper produced can be part of an ongoing circular system. Hence, leftovers from production and the paper inside our notebooks can be used again as long as we recycle it correctly.

Our books are produced CO₂ neutral in a bookbindery in Europe. This company is conscious in regards to sustainability, is FSC® certified and holds several other environmental certificates. They participate in many sustainability projects and choose to purchase only green electricity generated from renewable resources, invest in CO₂ neutral machines, produce products with zero carbon footprint and plant trees for every incoming order.

We use only the finest book linen cover for our notebooks. Our European supplier pursue their business activities in a sustainable and responsible manner. They are committed to the UN Global Compact corporate responsibility initiative and its principles in the areas of human rights, labour, the environment, and anti-corruption. The company is FSC® certified and use only green electricity.

The paperboard we use for all our books are made of 100% recycled paper. The boxes we use for shipping are made from 80% recycled paper and the filling material is made from 100% recycled material.

You are welcome to read more about our sustainability work at www.paperstyle.se

THE FEATURES

Paperstyle - Swedish design made with Swedish high-quality paper. For those who love to write and sketch, often and a lot. The books are available in several natural colours.

Textile cover

The notebook covers are made of natural, sustainable and carefully selected textile material with an impressive durability.

Matching silk page marker

Every book has a matching silk page marker to guide you to the right page.

Swedish design

Paperstyle is designed in Örebro, Sweden.

Thread bound insert

All notebooks have been thread bound for long lasting use.

Age resistant paper

An age resistant paper has a good ability to resist external circumstances, it will not break down over time.

Paper grammage

The exclusive and thick Swedish paper used in our notebooks suits up for a pleasurable writing experience.

Matching headband

Our books have headbands that match perfectly to the book cover.

Acid-free paper

We use purified, acid-free paper that lasts longer and preserves its whiteness. If a paper is not acid-free it may become yellow and more fragile over time.

Product footprint CO₂ Neutral

Our notebooks are produced CO₂ neutrally at a carefully selected book bindery in Europe.

Cradle to Cradle Certified® Bronze paper

Cradle to Cradle refers to an alternative model of product design where product materials are brought back to the "cradle" of the production process instead of being laid to rest in a "grave" in the ground.

FSC® certified paper

FSC® stands for the Forest Stewardship Council®. This is a non-profit agency that works to protect forests around the world. With this certification we ensure that the forests used in the production of the paper we use in our notebooks is environmentally sound.

Swedish paper

The high-quality paper comes from one of the cleanest paper mills in the world, situated on the west coast of Sweden.

New Colours in A5

Welcome the fresh new notebooks Green Leaf & Raspberry Sorbet, colours chosen to brighten up and make you happy! We found our inspiration for the colours from our Swedish nature; imagine newly sprouted leaves in spring, that's Green Leaf, or imagine sun warmed berries in summer, that's Raspberry Sorbet.

Thread Bound *of Sweden*

Foggy Moss, Oat Fields & Bohus Granite, all gentle nature-inspired colours carefully selected to complement Thread Bound of Sweden, notebooks created with great care for our environment.

For Thread Bound of Sweden, we have chosen to use only the finest raw materials, providing a delightful writing experience. We selected a Swedish 100-gram FSC® and Cradle to Cradle certified paper from Munken, produced at one of the world's cleanest paper mills. We bind Thread Bound of Sweden in a carefully selected bookbindery in Europe! The book lies flat and has perforated sheets that are easy to tear out. The rounded corners enhance the light, soft feel and also protect the book during use.

YEAR DIARIES

YEAR DIARY COLOURS

”Today is the first day of the rest of your life.”

“Today is the first day of the rest of your life” is a phrase often used. Perhaps without thinking about the deeper meaning of the words. So, close your eyes for a second and dream away with a year diary of your choice.

Use the diary to collect memories, experiences, thoughts, and dreams and let your daily notes become something valuable to look back on, long after the pages have been filled.

But why should you choose our year diaries and what is the benefit in writing down things that happens in your life?

Finding balance and stress-free moments during the day is something we all struggle with in different ways. As technology is ever-present and craves our attention many of us wish for a break. To be creative and to create with our hands. Writing by hand is a fantastic way to calm down an overwhelmed system and allow a moment of reflection.

In our year diaries, we’ve added that extra something to give you a writing experience beyond the ordinary. In addition to the space set aside for your daily notes, we have included several useful pages:

- 🍃 Your Year Plan
- 🍃 Bucket List
- 🍃 Your Goals
- 🍃 Anniversaries

In our one year diary you will also find a mood tracker and an entry for your “Best of the Day” experience.

In the end of the book, we’ve added a few extra pages for additional notes. Write down your favourite quotes or something about a special event you want to remember. It’s your journey – and it starts here.

YEAR DIARY FEATURES

My Bucket List

We all have things we want to accomplish in life. Write down places you wish to travel to, challenges you want to overcome, or other things you dream to achieve. Check them off as you go by adding the date or a ✓ and feel mighty proud of yourself!

My Goals

Dive deeper into your strengths and weaknesses on this page. What are you grateful for? Are there any special goals that are more important than others to you? What are your strategies for reaching your goals? Revisit this page often if you want to follow up on your progress.

Tips and Ideas

We won't tell you how to use the diary, but a few ideas along the way might be helpful. On these pages you will find useful tips to make the most of the plain pages ahead of you. Workout log, your baby's first year or a travel book are just a few of the possible purposes of the book.

My Plan

"A goal without a plan is just a wish" is a common saying, and isn't it true? Write down your plan for the time span of the diary – whether it is for one, three, five or ten years. Your plan can be big or small, personal or work related.

Five year Diary

Do you need the five year diary but prefer it in English? Just like in the Swedish version, this diary has plenty of room for daily notes, your five year plan, the bucket list, your life goals and important anniversaries. Enjoy also our extra pages for additional notes. Paper grammage 90 g/m².

The notebooks in our event edition are for special moments, which is the reason why we have chosen an exclusive Swedish 150-gram paper for this range. This gives you the freedom to choose exactly how you wish to decorate the pages as the paper is thick enough even for adding photos or clippings. Use your book to make sketches or whatever purpose that fits your mood.

- ✦ 96 plain pages.
- ✦ Swedish design.
- ✦ Swedish 150-gram acid-free and age resistant high-quality paper (for more detailed information please see pages 6-8).
- ✦ The thick quality of the paper prevents the writing and sketches to bleed through and will not be visible to the other side of the sheet.
- ✦ The insert is thread bound for great durability.
- ✦ A nice page marker helps you find the right page.
- ✦ Handy size of 185 x 185 mm.

CUSTOMISATION

Make It Yours

Enhance your brand with customized notebooks and calendars from the broad Paperstyle collection. Optimal for business events, work anniversaries or as a corporate gift. See all colours, sizes and details in this catalogue or on Paperstyle.se.

Choose from the following options:

- ✦ Blind embossing - your logo is modified to a stamp which is pressed down into the cover leaving a three-dimensional elegant effect.
- ✦ Coloured foil embossing - just like the blind embossing your logo is transformed into a stamp which is pressed down into the cover with a foil of your choice. The foil is heated and applied to the book.
- ✦ Promotional pages - individually designed pages that is pasted into the book. You can choose between 1- or 4-coloured prints.

You can be sure your gift will be appreciated and used for a long period of time. If your company value quality and care about sustainability as much as we do, our Paperstyle products will suit you perfectly.

We have long experience of working with customized books and will be happy to help you further.

If you can't find exactly what you are looking for, we can design a special collection just for you.

Are you looking for larger volumes of customized products for your company? We have a wide contact network and will be happy to assist you with production both in Europe and Asia.

Welcome with your request!

Please contact us if you have any questions.
