# PAPERSTYLE BY NATURE

---

We believe that true beauty is found in nature. Inspired by the Nordic landscape, the Paperstyle collection is created with carefully selected materials of the highest quality. The range offers a balance of trendy and calm colours, making it easy to find a notebook that suits your personal style—whether for work or for everyday use at home.

In today's digital world, we want to encourage the art of handwriting. Writing by hand offers many benefits: it is calming, and research shows that it supports learning, memory, and language development.

Welcome to the world of Paperstyle.

# WE LOVE PAPER

---

Paperstyle was founded in Sweden in 1997 with a vision to create high-quality paper products defined by timeless Scandinavian design. Inspired by nature, we carefully select colours that reflect a calm and harmonious aesthetic. Sustainability and quality are at the core of everything we do, and we work exclusively with partners who share these values. To ensure responsible production and high standards, our notebooks are bound in Europe, keeping the manufacturing process as close as possible.

Paperstyle is a part of Concess Nordic AB, owned by Leuchtturm Gruppe, which is a family-owned company in third generation with great passion for paper, design, quality and details. A passion everyone in the company shares.

## High Quality Standards

### The paper

- The acid-free and age resistant paper we have chosen for our notebooks is a Swedish high-quality paper that will keep its freshness for generations to come.
- The crème-coloured paper has a smooth surface which make writing a pleasurable experience. It is also proven to be relaxing for the eye and easier to read from.
- The recipe and thickness of the paper allow you to use fountain pens, ballpoint pens or pencils with excellent performance without bleeding through to the next page.
- The structure of the paper prevents the ink from feathering, something that suits everybody with high requirements.

## The cover

- Our carefully chosen European book linen covers bring together beauty and quality, while keeping sustainability in mind.
- Our notebooks are made for daily use to last for many years, as well as an interior design decoration.
- Page markers and headbands complement the notebooks perfectly.

## The bookbindery

- We have thoughtfully selected a bookbindery in Europe that meets our strict production requirements.
- Our books are thread-bound, crafted to endure daily use and last for years.
- The book bindery produces our books with a carbon-neutral footprint.

## Sustainability

**Sustainability** - Our notebooks are developed with more than design and quality in mind. Our priority has always been to produce sustainable products with minimal impact on the environment.

**Swedish Paper Mill** - We choose to use Munkn Premium paper from a Swedish paper mill that is one of the world's most sustainable. When production is finished the water used is so clean that you can drink it. The paper mill has even won awards for its beautiful botanical garden, located next to the final pond where the water is filtered.

**FSC® – certified** - Both the mill itself and the paper it produces are FSC® certified, which means that the forest is managed in a way that preserves biological diversity and promotes local people and workers.

**Cradle to cradle** - The paper is also Cradle to Cradle Certified® at Bronze level. This is a global standard that guarantees that the paper produced can be part of an ongoing circular system. Hence, leftovers from production, and the paper inside our notebooks can be used again as long as we recycle it correctly.

**Book Linen Cover** - We use only the finest book linen cover for our notebooks. Our European supplier pursue their business activities in a sustainable and responsible manner. They are committed to the UN Global Compact corporate responsibility initiative and its principles in the areas of human rights, labour, the environment, and anti-corruption. The company is FSC® certified and use only green electricity.

**Recycled Paper** - The paperboard we use for all our books are made of 100% recycled paper.

**CO<sub>2</sub> Neutral Production, in Europe** - Our books are produced CO<sub>2</sub> neutral in a bookbindery in Europe. This company is conscious in regards to sustainability, is FSC® certified and holds several other environmental certificates. They participate in many sustainability projects and choose to purchase only green electricity generated from renewable resources, invest in CO<sub>2</sub> neutral machines, produce products with zero carbon footprint and plant trees for every incoming order.

**Packaging** - The boxes we use for shipping are made from 80% recycled paper and the filling material is made from 100% recycled material. The notebooks are not wrapped in plastic.

**Daily use** - Once filled, a notebook becomes a cherished companion. You hold onto it, and it doesn't get more sustainable than that.

You are welcome to read more about our sustainability work at [www.paperstyle.se](http://www.paperstyle.se). We wish you a happy writing experience and we guarantee that your notes and sketches will live for a very long time.

# THE FEATURES

## Swedish design

Paperstyle is designed in Örebro, Sweden.

## Thread bound insert

All notebooks are thread bound for long lasting use.

## Swedish paper

The high-quality Munken premium paper comes from one of the cleanest paper mills in the world, situated on the west coast of Sweden.

## Acid-free paper

We use purified, acid-free paper that lasts longer and preserves its whiteness. If a paper is not acid-free it may become yellow and more fragile over time.

## Product footprint CO<sub>2</sub> Neutral

Our notebooks are produced CO<sub>2</sub> neutrally at a carefully selected book bindery in Europe.

## Textile cover

The notebook covers are made of natural, sustainable and carefully selected textile material with an impressive durability.

## Matching headband

Our books have headbands that match perfectly to the book cover.

## Cradle to Cradle Certified® Bronze paper

Cradle to Cradle refers to an alternative model of product design where product materials are brought back to the "cradle" of the production process instead of being laid to rest in a "grave" in the ground.

## Age resistant paper

An age resistant paper has a good ability to resist external circumstances, it will not break down over time.

## No plastic shrink wrap

The notebooks are not wrapped in plastic.

## 100% recycled cardboard

The paperboard we use for all our books are made of 100% recycled paper.

## Matching silk page marker

Every book has a matching silk page marker to guide you to the right page.

## FSC® certified paper

FSC®, the Forest Stewardship Council® is a non-profit agency that works to protect forests around the world. This certification ensures that the forests used in the production of the paper we use in our notebooks is environmentally sound.

## Paper grammage

The exclusive and thick Swedish paper used in our notebooks suits up for a pleasurable writing experience. Grammage: 90 g/m<sup>2</sup> - 150 g/m<sup>2</sup>.

NEW

# Days To Remember

Days to Remember - One Year Journal, Pocket Edition is ideal for recording birthdays, anniversaries, and important milestones, while also perfect as a one-year diary with space for daily notes. VE TABLE JOURNAL

# GRAND DESIGN EDITION

These Paperstyle journals are as much a beautiful interior design piece as they are a practical tool for your creativity. Unlike a traditional coffee table book, you create your own content on the 256 plain pages. The book offers a luxurious writing experience and adds a stylish touch to any home or environment.

The Grand Design Edition includes a clever loose-leaf guide — a guide for sketching, planning home projects, writing recipes, keeping a journal, or using it as a guest book. The possibilities are endless, limited only by your imagination.

# YEAR DIARIES

# YEAR DIARY COLOURS

*”Today is the first day of the rest of your life.”*

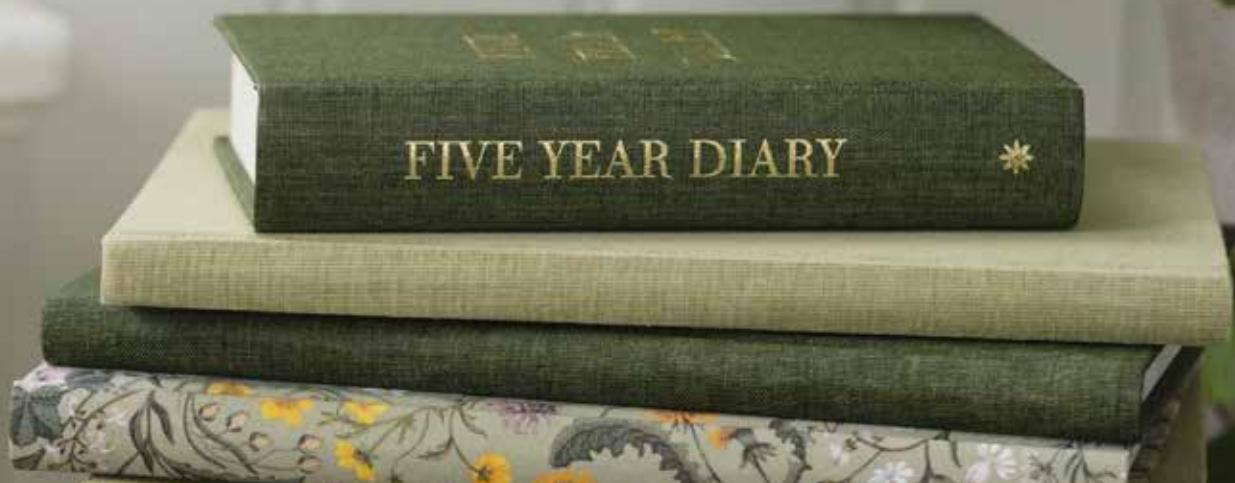

Choose from a wide range of year diaries to record memories, experiences, thoughts, and plans, turning your daily notes into a valuable record for the future.

Finding balance and moments free from stress is something we all struggle with. With technology constantly demanding our attention, many of us long for a pause — a chance to be creative and use our hands. Writing by hand is a wonderful way to slow the mind and create moments of reflection.

In addition to daily notes, this diary offers thoughtful details to enhance the writing experience. It's a practical, well-designed tool to support your planning, reflection, and creativity every day.

# YEAR DIARY FEATURES

## Tips and Ideas

We won't tell you how to use the diary, but a few ideas along the way might be helpful. On these pages you will find useful tips to make the most of the plain pages ahead of you. Workout log, your baby's first year or a travel book are just a few of the possible purposes of the book.

## My Plan

"A goal without a plan is just a wish" is a common saying, and isn't it true? Write down your plan for the time span of the diary – whether it is for one, three, five or ten years. Your plan can be big or small, personal or work related.

## My Bucket List

We all have things we want to accomplish in life. Write down places you wish to travel to, challenges you want to overcome, or other things you dream to achieve. Check them off as you go by adding the date or a ✓ and feel mighty proud of yourself!

## My Goals

Dive deeper into your strengths and weaknesses on this page. What are you grateful for? Are there any special goals that are more important than others to you? What are your strategies for reaching your goals? Revisit this page often if you want to follow up on your progress.

# OUR WEDDING

You and Me

Wedding

# Wedding

---

A wedding is a very special day, a day you would like to remember every moment of, forever. Savor the occasion by letting your guests share their thoughts and love in a guest book and allow the memories to remain through their words and well-wishes. Some might even share their tips on the equation of a long and happy marriage! Let the wedding guests photograph themselves and enclose their pictures in your guest book and it will surely be a fun and happy memory to look back on.

# Make It Yours

---

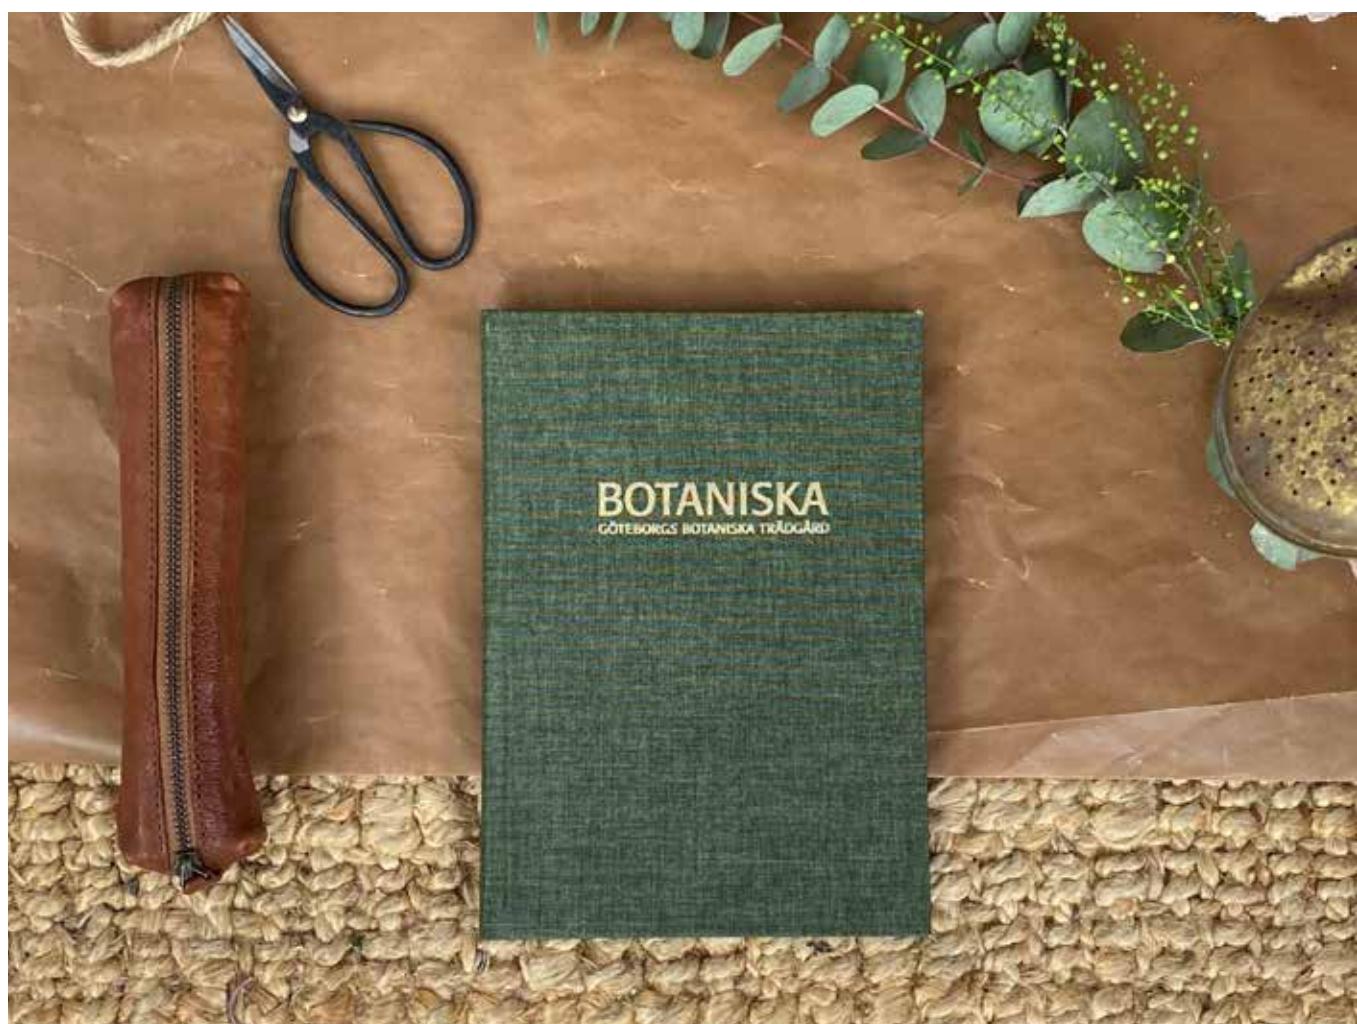

Enhance your brand with customized notebooks from the broad Paperstyle collection. Optimal for business events, work anniversaries or as a corporate gift. See all colours, sizes and details in this catalogue or on Paperstyle.se.

Choose from the following options:

Blind embossing - your logo is modified to a stamp which is pressed down into the cover leaving a three-dimensional elegant effect.

Coloured foil embossing - just like the blind embossing your logo is transformed into a stamp which is pressed down into the cover with a foil of your choice. The foil is heated and applied to the book.

Promotional pages - individually designed pages that is pasted into the book. You can choose between 1- or 4-coloured prints.

You can be sure your gift will be appreciated and used for a long period of time. If your company value quality and care about sustainability as much as we do, our Paperstyle products will suit you perfectly.

We have long experience of working with customized books and will be happy to help you further.

If you can't find exactly what you are looking for, we can design a special collection just for you.

For larger volumes of customized products for your company, our wide contact network enables us to assist you with production in both Europe and Asia.

Welcome with your request!

Please contact us if you have any questions.
